— 2025 —

Influenced by Nature

*Embrace the beautiful
imperfections of oak, &
bring nature into your
home*

The latest trend loved by designers, is the mix of natural materials with warm colour tones. A trend which evolved from an interior design concept known as Japandi.

Japandi is a blend of Scandinavian and Japanese design, in which, design aesthetics are focused on simplicity, natural elements, high quality materials and sustainability.

Celebrating everyday beauty with serene aesthetics to create bright, tranquil and clean-lined living spaces.

MONARC

*M*onarc is our newest range, designed exclusively for those who want an oak aesthetic with high quality, natural materials.

Monarc is crafted from carefully selected oak material. Designed with a modern 35mm microshaker frame.

The finish shown, is a lacquer that showcases the rich tones and grains found in natural oak.

IONA

Iona is our oak veneer slab door. Finished with a lacquer which protects and enhances the natural beauty of the oak.

Utilise the clean simple lines of a slab door with tones of natural oak, to deliver a truly timeless design with understated elegance.
