

KITCHEN Collection

2024/25

An elderly woman with short, wavy grey hair and glasses, wearing a grey sweater and a dark striped apron, is smiling as she looks down at a large glass mixing bowl. A young boy with brown hair, wearing a light grey sweater and a white apron, is pouring milk from a glass pitcher into the bowl. A young girl with brown hair tied back, wearing a black top and a white apron, is smiling and looking at the bowl. The kitchen counter is wooden and has various ingredients: a brown paper bag, a carton of brown eggs, a plate of white flour, and a small orange. In the background, there are white kitchen cabinets and a rack with hanging pots and pans. A green plant is visible in the top left corner.

A man with glasses, wearing a blue polo shirt with black accents, is focused on his work in a factory. He is leaning over a table saw, carefully guiding a piece of light-colored wood. The background is a blurred industrial environment with various pieces of equipment and materials. A semi-transparent white box with rounded corners is overlaid on the left side of the image, containing text.

One of our most beautiful classical door styles, the Aylesbury range creates elegant grandeur in any setting.

Crafted using the finest materials, we use a special painting technique to carefully accentuate the beautiful natural grain in each door.

5 PIECE DOOR | GRAINED | PAINTED

The Ashford door delivers a space, modern in its execution and timeless in its appeal. Its smooth clean lines and extra wide frame differentiate this door from other shaker designs.

The natural open grain in the wood appears even more beautiful in the rich colours popular amongst designers today.

IMPORTANT INFORMATION

Paints naturally age over time particularly when exposed to UV rays from sunlight. Where an addition to a kitchen is required, a freshly painted product may not exactly match products which have been in situation for a period of time.

It must be noted that under normal varying conditions of temperature and humidity, solid wood products will naturally expand and contract. This may result in hairline cracks of the paint finish at construction joints, which may be particularly noticeable on products painted with a flat finish.
