Embrace
the beautiful
imperfections
of oak & bring
nature into your
home

One of the most popular design trends today is the combination of natural materials with a palette of warm, muted earthy tones.

Homeowners are seeking refined spaces, where every detail is intentionally considered to create a bespoke design which elicits warmth and charm. An aesthetic made possible only through high-quality materials and expert craftsmanship.

Influenced by Nature

PAINTED RANGES

THE ESSENCE OF MODERN DESIGN

Each range is skillfully crafted & painted, to bring your beautiful kitchen designs to life.

Designed for those who want a stylish kitchen, where modern elegance brings a sense of home.

Brushed Ash AYLESBURY

One of our most beautiful classical door styles, the Aylesbury range, is crafted using the finest materials.

The beautiful detail in the profile of Aylesbury, brings a sense of refined grandeur to any interior. Perfect for homeowners drawn to timeless, elegant design.

SIGNATURE OAK DOORS

BRUSHED GRAIN ~ FULL MATT FINISH

Elevate your kitchen design by pairing our painted doors with a matching handcrafted oak door.

Our signature oak doors are crafted from carefully selected oak materials, brushed to accentuate the feel and texture of the wood.

Coated in a specially developed matt lacquer that allows the rich organic textures of natural wood to take centre stage.

SEMI MATT FINISH

The semi matt finish softens the surface while a gentle sheen enhances the door's tactile quality.

Textured Opulence

MONARC

Monarc is designed with a modern 35mm microshaker frame for those who want a modern oak door.

The semi-matt lacquered finish adds a gentle sheen, that highlights the oaks natural beauty.

IMPORTANT INFORMATION

Paints naturally age over time particularly when exposed to UV rays from sunlight. Where an addition to a kitchen is required, a freshly painted product may not exactly match products which have been in situation for a period of time.

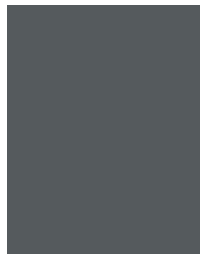

Stone Mason

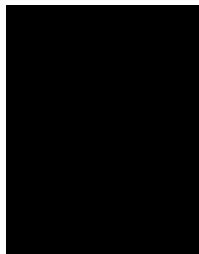

Manor stone

Pebble

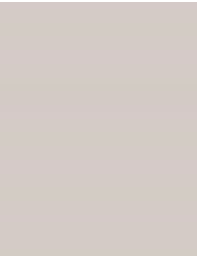

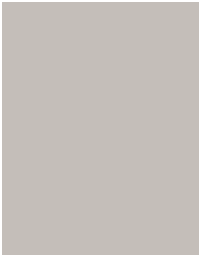

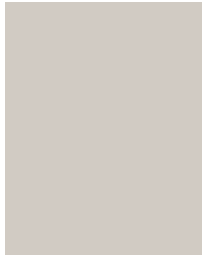

Graphite

Noir

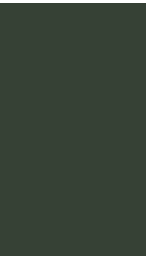

It must be noted that under normal varying conditions of temperature and humidity, solid wood products will naturally expand and contract. This may result in hairline cracks of the paint finish at construction joints, which may be particularly noticeable on products painted with a flat finish.
